A: The mixture for the brown and scratch coats should be one part of plaster to two parts of weight of clean, sharp, dry sand. One bag of plaster to two parts of weight of clean, sharp, dry sand. One bag of plaster lockuling the sand will cover about nine square yards over wood lathe and over grapum lathe about 12 square yards. No sand is used in the white tinish coat. Three parts of lime putty by measure are mixed with one part of dry gauging plaster. Your dealer can give you a pamphlet containing complete directions for mixing. Your public library undoubtedly will have handbooks on plastering which will give more detailed information on the application of plaster. Column space is too limited for a long discourse on the subject.

COAL GAS

Q: Six weeks ago we started to have trouble from coal gas. We have a hot air furnace and when it is banket for the night, the house becomes filled with coal gas, even when all drafts are open wide. The man who installed the furnace says it is all right.

A: It may be that the fron cement between the furnace serious has cracked and coal galleaks through from the firepot to the sir section. The heated air into the rooms, if you notice the furnace injunt only it is banked, the trouble may be due to the incorrect banking of the fire.

Calling other nations dirty names in diplomatic language is not included. To include it is to be-tray the hopes of all the people who are ready to renounce war and have put their faith in a handful of men conferring in the gymnasium of Hunter College, the Bronx, New York City.

THE SENATE banking committee's 14-5 vote approving the British loan proposal brings this coarly and important preposition to the point of congressional debate. It will be pointed out with deep conviction that the United States cannot afford not to make the \$3,750,000,000 loan, as drawn up by international banking experts. In all probability, the proposal will carry and the loan will be made.

But there should be in every taxpoyer's mind one reservation. Great Britain cannot be put on its feet and kept there as the English-speaking ally of the United States for \$3,750,000,000. That amount, equivalent to the cost to this country of fighting World War II for a little more than a formight, is only a small down payment.

Once this government becomes committed to a peacetime version of its wartime lend-lease policy, there will be no limit to the billions that

will follow one another into the yawning maw

of International subsidy. Britain is starting with 53,750,000,000. France, according to Leon Blum,

Lend-lease had reached more than \$42,000,-000,000 by last July. When it was started it was to be a garden hose we would "lend" to our neighbors to put out a fire. The British loan more candld in admitting that Britain couldn't be saved by a paltry \$3,750,000,000. It's a lot of money to American taxpayers, but small change in the international subsidy business. With the Paragraphers

TEACH YOUR CHILD TO ENJOY CLEANLINESS

IF YOUR CHILDREN object to deily baths and handwashing before meals, try appealing to their imaginetions. A sudsy bath or shower can be fun . . . washing away germs is more interesting than merely washing hands ... clean hair and teeth have a sheen and spartle . . . fresh clean clothes feel good.

Cleanliness is so important to the child's health and waifers that it's worth taking the trouble to teach him to enjoy it. . . . Make it easier for him by having plenty of hot water on hand all the time.

STOCKS GIVE GROUND IN SHORT SESSION

NEW YORK, April 13—Stocks gave up further ground in today's market with steels and merchandising shares prominent on the decline.

Air transport issues were weak Air transport issues were weak
at the opening, reflecting unfavorable carnings reports,
Transfers were around 600,000
shares for the brief Saturday scasion. Losses of fractions to more
than a point predominated near

the close. Manufacturing issues, pinched by shortages incident to the soft coal stoppage, reflected concerniver effects on income. Some lightening of accounts was attributed by brokers to belief that the market which approached its February neak early in the week had. many peak early in the week had not completed a corrective move.
